Pablo Varo

Architecture Student

196 impasse du limon, Carpentras, France | pablovaro@orange.fr | +33 7 49 39 19 72 | Category B driving licence

PROFILE

Architecture student at ENSASE, I draw on the rigour of the ground and the sensitivity of what is already there, combined with a command of contemporary design tools. I explore the passage from territorial analysis to constructive detail, paying particular attention to simplicity, a paradoxically demanding exercise, and to the modularity of spaces.

EDUCATION

- 2026-2027 — 3rd year of Bachelor's in Architecture — ENSASE, Saint-Étienne
- 2024 — 1st year of Bachelor's in Art History & Archaeology — Lyon 2 University
- 2023 — Baccalauréat — Mathematics, Physics-Chemistry, Life & Earth Sciences

EXPERIENCE

Raw earth construction — ENSASE, Saint-Étienne *Intersemester 2025-26*
- Discovery and hands-on experimentation with different earth construction techniques alongside two specialist architects/masons: cob (bauge), rammed earth (pisé), adobe and wattle and daub (torchis).
- Direct application to insulating a wall with light earth and straw-clay.

President of the Imhotep Association — ENSASE, Saint-Étienne *2025-26*
- Fundraising and event organisation.
- Fruit, vegetable and other essential-goods baskets; partnership with De la ferme au quartier and Vrac en vert.

Stone-cutting worksite — Gatehouse of the Abbey of Morimond, Rempart *07/2025*
- Learning and practising traditional construction techniques.
- Mortar-making, wall-building, earthworks, stone-cutting.

Humanitarian trip — Scouts — Philippines (10-year scout project) *07/2024*
- Sourcing partners and funding, project planning. Learning and practising organic farming.
- Wood vinegar, grafting, fertiliser, layering, planting fruit and vegetables.

Architecture firm internship — 83 Arquitectos, Madrid *05/2023*
- Introduction to the architect's profession in a firm: new-build and renovation projects, how a firm operates, working and design methods.

Carpentry internship — Axilom, Carpentras *04/2020*
- Learning tools, machinery and carpentry techniques.
